SECRET - U.S. OFFICIALS ONLY

Comment. The report indicates that the occupation of Gdynia
Harbor was normal.

a minesweeper of the Soviet T-43 Class.

was first observed with the Polish Navy
are no indications whether or not more minesweepers of this type have
been turned over to the Poles by the Soviets.

Gdynia Shipyard is allegedly also engaged in the construction of
minesweepers; since so far only one T-43 has been observed with the Polish
Navy at a time, it may be possible that Poland actually builds these craft
and that only one ship has yet been completed. For photographs, see Annex.
